

ENERGY INNOVATION CENTRE – INNOVATION ENGINEER (WATER)

SALARY: £40K +

If you are passionate about new technologies, driven by innovation and energised by collaboration - this is the role for you.

The Energy Innovation Centre has been established for the past decade and, thanks to continued growth and success, we have a vacancy for a Water Innovation Engineer.

The successful candidate will be charged with helping our industry partners and our global innovation community to work together to implement innovations which deliver tangible change.

In this exciting role, you will:

- Seek out new technologies and innovative SMEs
- Develop proposals and project plans for presentation to water industry partners
- Develop technology development and trial propositions, in conjunction with innovators, for consideration by industry and external investment partners
- Assist with the technical due diligence required to support industry investment
- Assist innovators in identifying potential markets for new technologies

The minimum requirements of the role are:

- Experience of the water industry
- Experience in a technical role, preferably working for a water utility or similar
- Commercially-minded and motivated, with a flair for innovation
- A degree or equivalent in a relevant subject
- An understanding of water industry regulation
- Excellent communication and presentation skills
- A keen eye for detail
- A good team player
- Good report writing skills
- Full UK driving license

Desirable requirements include:

- Chartered Engineer
- Previous project management experience
- Small to medium group facilitation experience
- An understanding of the legal and commercial factors associated with product development
- Experience of water industry operations, planning, investment management, policy and standards

We are offering an excellent pay and benefit structure for the successful applicant:

- Salary: £40k+ depending on skills and experience
- 25 days annual leave
- Employer contribution into a non-contributory personal pension plan
- Private medical insurance

- Professional subscription fees
- Childcare vouchers
- Flexible working hours

To be considered for this role, please send a full CV and covering letter detailing why you are the right person for the post to: Sallyann.Greedy@energyinnovationcentre.com
